ALTERNATE ENERGY INITIATIVES

ENERGY CONSERVATION ALTERNATIVE SOURCES OF ENERGY AND ENERGY CONSERVATION MEASURES

Energy conservation refers to the methods of reduction in energy consumption by way of elimination of wastage and promotion of efficiency. We know that due to the vast gap between demand and supply, lot of efforts beings done to bridge the gap in term of generation of more electricity which requires lot of capital investment and apart from it creates a lot of environmental concerns.

Energy conservation is the key element of energy management.

We can reduce the energy consumption by adopting various way of energy conservation which includes efficient use of technologies and avoiding energy wastages

Our College has initiated following

Measures to conserve energy respectively -

- 1. Solar panels
- 2. Wheeling to the grid units
- 3. Light emitting diode (LED)
- 4. Power efficient equipments

1. Solar panels

SOLAR ENERGY PANELS AT ADMINISTRATIVE BUILDING

SOLAR PANELS AT ACADEMIC BUILDING

SENSOR BASED ENERGY CONSEVERSATION FACILITY

2. Wheeling to the grid units

🔤 💽 GPS Map Camera

Google

3-Light Emitting Diode (LED):-

Sharda Devi Degree College has a policy of employing LED lights throughout the campus. The institute initiates the implementation of replacing all the light with LEDs from administrative block and academic block. The entire block is lit by LED light. All the light of library in the ground floor is replaced with LED lights.

Total Number of LED lights

Total number of LED tube lights in Administrative building = 72 Total number of LED bulb in administrative building = 46 Total number of LED tube lights in Academic building = 65 Total number of LED bulbs in Academic building = 20 Total number of LED tube lights in the college = 137 Total number of LED bulbs in the college = 66

Total power consumption met through LED bulbs=660 watts. Total power consumption met through LED tube lights = 2,466 watts.

5-Power Efficient Equipment's:-

FIVE STAR POWER EFICIENT EQUIPMENTS

SOLAR INSTALLATION BILLS

The Institution has disabled-friendly, barrier free environment

Differently abled (Divyangjan) friendliness resources available in the Institution and "The Learning Disability Friendly Initiative of the College"

The right to Education focuses on the need to have inclusive education, which means that educating students with **learning difficulties and identified disabilities** have the right to fulfillment of their educational needs. The College provides equal opportunities to all students of the college in congruence with the guidelines given by the government.

The College has also introduced the *Learning Disability Friendly Initiative* to support students with Learning Disabilities. This was done specifically to create an environment of acceptance and nurturance.

Objectives

1.To ensure that students with disabilities get equal opportunities to explore their educational potentials.

 To provide a nurturing and motivating environment for students with learning disabilities to accommodate their pedagogic needs.
To eradicate any kind of stigmatization and segregation so that they can become confident individuals.

POLICY FOR THE DIFFERENTLY ABLED

The policy has been prepared to ensure that all member of SDDC are aware of the facilities provided for the people with disabilities.

The college takes utmost care in providing the needed amenities and create an environment of inclusive education for students.

• Assuring that the buildings, toilets, libraries, labs etc are barrier free and accessible for all types of differently abled persons.

- Ensuring inclusion and effectiveness in the participation of differently abled students in curricular, co-curricular and other activities.
- Adopting Suitable medium and method of teaching for the disabled students.
- Providing assistance to the students in the learning process apart from regular class hours.
- Built environment with ramps for easy access to classrooms.
- Provisions for enquiry and information: Human assistance, Reader, Scribe, soft copies of reading material.

poogle

Green Practices

- Students, staff using Bicycles Public Transport Pedestrian Friendly Roads
- Plastic free campus
- Paperless office
- Green landscaping with trees and plants

BICYCLES: BICYCLES FOR POLLUTION-FREE ENVIRONMENT

- The provisions for parking the cycles are provided both in the Main gate and also in the front gates for the benefit of the students.
- > More than 95% of the day scholars walk from the gate to their blocks
- > Only 10% of faculty members use motored vehicles.

PUBLIC TRANSPORT:

- Our Institute is well connected from all areas of JHANSI city and suburbs by public transport facilities.
- Most of the day scholars and faculty members use public transport only either bus or train- for daily commuting.

PEDESTRIAN FRIENDLY ROADS:

- Roads inside campus are strictly prohibited for use of two-wheelers and four-wheelers except utility vehicles. The roads are fully used only for pedestrian purpose.
- All vehicles should be parked in the respective places allotted by the security and they are not allowed to enter beyond the barricade placed at the entrance of the campus, unless if there is an emergency or special case.

PLASTIC FREE CAMPUS:

- A policy is in place to convert our campus into a Plastic-free campus. Within the context of our Green campus policy we commit to ban the use of plastics, to reduce the environmental impact of waste plastics.
- > Usages of plastics are avoided in the canteen by serving the food in the steel plates.

PAPERLESS OFFICE :

Electronic documentation is maintained in 50 percent of the cases. All communications to faculty members and students are through e-mails and SMS.

GREEN LANDSCAPING WITH TREES AND PLANTS

CATEGORIES OF LAND USE	AREA (m²)
PLANTATION AREA	6070.28463 M ²
BUILT UP AREA (INCLUDE ROADS)	4046.85647 M ²
TOTAL AREA	10117.1411 M ²

The area is immensely diverse with a variety of tree species performing a variety of functions. Most of these tree species are planted in different periods of time through various plantation programmers organized by the authority and have become an integral part of the college. The trees of the college have increased the quality of life, not only the college fraternity but also the people around of the college in terms of contributing to our environment by providing oxygen, improving air quality, climate amelioration, conservation of water, preserving soil, and supporting wildlife, controlling climateby moderating the effects of the sun, rain and wind. Leaves absorb and filter the sun's radiant energy, keeping things cool in summer. Many spices of birds are dependent on these trees mainly for food and shelter.

The other green practices include

- Solar Power plant
- Bicycle
- E- waste Disposal
- Bio waste Disposal
- Waste Paper recycling
- LED Fixtures

> Air-conditioning split units of 5-star RATING

E-WASTE MANAGEMENT IN SDDC

SDDC has very efficient mechanism to dispose E-wastes generated from various sources. E-wastes are generated from computer laboratories, electronic labs, Physics Labs, Chemistry Lab, Academic and Administrative Offices.

The e-waste includes out of order equipments or obsolete items like lab instruments, circuits, desktops, laptops and accessories, printer, charging and network cables, Wi-fi devices, cartridges, sound systems, display units, UPS, Biometric Machine, scientific instruments etc. All these wastes are put to optimal use. All such equipment's which cannot be reused or recycled is being disposed off through authorized vendors. Instead of a new procurement Buy-Back option is preferred for technology up gradation.

E-waste stored in a particularlocation in store for exchange offer or dispose off to minimum price.

HAZAROUS WASTE MANAGEMENT IN SDDC

SDDC, like other entities that generate and manage hazardous wastes, is faced with a range of problems. Most of the departments do not generate hazardous waste and can be classified as conditionally exempt small quantity generators (generators of less than 100 grams of hazardous waste per chemical or biochemical month). Hazardous including contagious disease pathogen, patient blood, and radioactive substances are not used in the college campus yet. Ideally, handling, collection, and transportation and proper handling of chemicals begin with understanding the potential hazards related to their use. All stakeholders, especially from Academic Departments and laboratories are responsible for disseminating information on hazardous materials being used in the facility. As the amount of hazardous waste is nil or very negligible amount, there is not facility developed to transport and manage it in proper place.

LIQUID WASTE MANAGEMENT

Liquid waste is generated from Science laboratories and canteen.Liquid wastes generated by the University are of following types:

1. Laboratory, residential washing and canteen effluent.

The liquid wastes are mainly drained to improve the ground level of water. College do nothave any sewage treatment plant yet.

SOLID WASTE MANAGEMENT IN SDDC BIJOLI, JHANSI

Pollution from waste is aesthetically unpleasing and results in large amounts of litter in our communities which can cause health problems. Solid waste can be categorized into three types: biodegradable, non-biodegradable waste. Bio-degradable wastes include food wastes, canteen waste, wastes from toilets etc. Non-biodegradable wastes include plastic, tins and glass bottles etc. Each and every department of Sharda Devi College as well as administrative offices create some waste and dumped in small waste bin located in the department. Each building several dustbins are placed from where housekeeping staffs take the wastes. From the small bin wastes are dumped in big bin by the housekeeping staffs regularly. From the big waste bins the car from Municipal Corporation took the solid wastes.

The wastes are properly stacked in designated place and later disposed through vendors for proper waste management. College promotes digital platform to reduce the usage of paper for communication and sharing documents.

DUSTBIN (REUSE OF OLD PAINT BUCKET)
